Optimizely	optimizelyBuckets	10 years	Records the Optimizely Classic variation that the visitor has seen for each experiment. This allows us to deliver a consistent experience on successive page loads.	global
Optimizely	optimizelyEndUserId	10 years	Stores a visitor's unique Optimizely identifier, for both Optimizely Classic and Optimizely X Web. It's a combination of a timestamp and random number. No other information about you or your visitors is stored inside.	global
Optimizely	optimizelyPendingLogEvents	15 seconds	Used as a cache for a visitor's actions between tracking calls. This ensures that all events are efficiently tracked even if a visitor takes many actions in rapid succession. The cookie is wiped once the tracking call has been made.	global
Optimizely	optimizelyReferrer	5 seconds	After Optimizely Classic has executed a redirect experiment, stores the document.referrer property from the original page, so that Optimizely can pass it into integrated technology platforms. This is how we avoid creating "self-referrals" in your third-party analytics.	global
Optimizely	optimizelySegments	10 years	Persists the visitor's Optimizely Classic segments: browser, campaign, mobile, source type, and any custom dimensions that you may have configured. This allows us to ensure persistence of segment membership, which improves the accuracy of segmented results.	global
