

car2go Named Among 2018 Most Innovative Companies by Fast Company

World's largest, flexible carshare service boasts three million members sharing cars in 26 cities worldwide

AUSTIN (FEBRUARY, 2018) – car2go, the world's largest free-float carshare service, has been recognized by *Fast Company* as one of [2018's Most Innovative Companies](#). Specifically, car2go places in the publication's Top Ten Most Innovative Companies in Transportation list.

"Innovation is what drives our service forward, and we are honored to be named by *Fast Company* as a Most Innovative Company," said car2go CEO Paul DeLong. "car2go improves quality of life in cities through flexible, affordable free-float carshare. What we do helps cities move and breathe more easily. That's our mission and we are proud to be recognized for the important work we do."

car2go's flexible, affordable carshare service is used by over one million members in North America and over three million members worldwide. In total, car2go members share over 14,000 vehicles. Every 1.2 seconds, someone in the world takes a trip in a car2go vehicle. [Research](#) has proven that free-float carshare like the service offered by car2go effectively reduces road congestion while improving urban air quality.

About car2go N.A. LLC

car2go N.A., LLC, a wholly-owned subsidiary of Daimler North America Corporation, offers an innovative mobility solution in rapidly growing urban areas via a carsharing network of affordable, eco-friendly Mercedes-Benz and smart vehicles. A flexible and "on demand" mode of transportation, car2go complements existing public transportation by bridging the gaps between the "first and last mile" of a member's commute. car2go members use a free, downloadable app on their smartphone to find, reserve, take and end trips in car2go vehicles. TIME Magazine ranked the car2go app #5 on its "Top 10 Apps of 2017" list. Today, car2go's global operation is the largest, fastest-growing carsharing program in the world with more than three million registered members and a fleet of nearly 14,000 vehicles in 26 locations in North America, Europe and Asia.
